01 THINGS TO KNOW ABOUT SCHOLARSHIPS

GOOD GRADES ARE IMPORTANT, but there are other criteria besides achievements at school or university that are often taken into consideration when deciding whether to award a scholarship, for example: your origin, religious denomination, social commitment, family background, or study subject. Different scholarship sponsors have different objectives – make sure you do your research thoroughly.

DIVERSE FORMS OF SCHOLARSHIP: International students can apply for support not only in their first semester, but especially in their later semesters or during Master's programmes. Furthermore, there are also scholarships or grants specifically for final papers and exams, a semester abroad or internships.

LITTLE EFFORT: Often all you need to apply is a CV, a motivational letter and sometimes a letter of reference.

SECURE YOUR FINANCIAL SITUATION DURING YOUR STUDIES: Sometimes scholarship are sufficient to cover your entire living costs (full scholarships).

THERE ARE MANY DIFFERENT OPPORTUNITIES: We have compiled a list of scholarship sponsors in Germany for you. However, you should also always research scholarship sponsors in your home country!

WHO IS ELIGIBLE FOR A SCHOLARSHIP?

There are differences in whether and how the scholarships listed here are awarded to international students. Students are categorised in different groups that may receive different consideration:

- All students at Goethe University irrespective of their country of origin (this applies for example to the "Deutschlandstipendium")
- International students at Goethe University irrespective of their country of origin (this applies for example to graduation and internship scholarships)
- Students from EU (and EEA) member states and/or "Bildungsinländer*innen" pursuant to §8 Bafög (see below)(e.g. this applies to faith-based scholarships)
- Students from non-EU member states / so-called "Drittstaaten" (this applies for example to special programmes at the Friedrich-Ebert-Stiftung)

WHAT IS THE SIGNIFICANCE OF §8 BAFÖG?

Bafög (Bundes-Ausbildungs-Förderungs-Gesetz) is the national law governing educational grants and support. §8 of this law determines who is eligible for state-funded support for their studies in Germany („Bildungsinländer*innen“) and what conditions must be met (e.g. certain age limits when taking up studies, income below a certain threshold). Since many scholarship sponsors receive state funding, they are bound to Bafög rules in their decisions about awarding scholarships. Some special programmes for international students are exempt from these rules.

WHO CAN RECEIVE SUPPORT PURSUANT TO §8 BAFÖG? (EXCERPT)

- EU citizens who e.g. have lived in Germany for a minimum period of five years prior to taking up their studies, or who have, prior to taking up their studies, been in employment in Germany for a certain period of time
- recognised refugees or foreigners who are „geduldet“ (tolerated)
- foreign students whose parents have been in employment in Germany for a few years at the time the student takes up studies

A detailed list of all those eligible for support and the applicable conditions can be found here: www.bafög.de

TIPS ON FINDING AND APPLYING FOR SCHOLARSHIPS

SCHOLARSHIP DATA BASES - THE RIGHT SCHOLARSHIPS FOR YOU:

DAAD DATABASE (GERMAN ACADEMIC EXCHANGE SERVICE):

All scholarships offered by the DAAD and scholarships for international students offered by other scholarship providers: www.daad.de/stipendiendatenbank

STIPENDIENLOTSE (SCHOLARSHIP PILOT):

Scholarship database of the Federal Ministry for Education and Research. You can filter your research with various criteria: www.stipendienlotse.de

APPLY TO MORE THAN ONE SCHOLARSHIP

Apply for all the scholarships that fit your profile. But please note, however, that the scholarship providers associated with StipendiumPlus (> Talent programmes) exchange data about their applicants and may not consider multiple applications, so be careful with applying for these scholarships in parallel.

SHOW CONFIDENCE

Even if it feels a bit unfamiliar – describe your strengths and objective in strong, positive and detailed terms in your application. If a motivational letter is required, take your time with this and adapt it to each scholarship provider.

KEEP DEADLINES AND MAKE SURE YOUR APPLICATION DOCUMENTS ARE CORRECT AND COMPLETE

Make sure, above all, that you submit your documents in good time and in accordance with the formal requirements of the scholarship provider. It is advisable to bring certified copies of important documents such as certificates and diplomas with you to Germany. Ask a native German speaker to proof-read your documents. There should not be any spelling errors in your application.

Tip: If you have questions regarding your application documents, check with Goethe University's Career Service. They will give you tips for improving your CV and your motivational letter. www.career.uni-frankfurt.de

DON'T BE SHY TO ASK

If your application is not successful, don't be shy to ask why. Sometimes it was just a formality. And sometimes feedback will help you develop and grow, so you can apply for a scholarship again at a later point.

02 SCHOLARSHIPS FOR INTERNATIONAL STUDENTS AT GOETHE UNIVERSITY

DEUTSCHLANDSTIPENDIUM OF GOETHE UNIVERSITY

The Deutschlandstipendium is available for students of all nationalities at German universities, including Goethe University. It provides support to students whose career so far promises outstanding study results. It is available as of the first semester.

CRITERIA REQUIRED AT GOETHE UNIVERSITY

Besides high achievements at school and/or university, requirements include social commitment, for example in clubs or in university politics, in church-run or political organisations, as well as getting involved in the social environment, family or a social institution. Any special obstacles resulting from a student's family or cultural origin are also taken into consideration.

TWO-STEP SELECTION PROCESS

In the first step, only grades achieved at school or university are evaluated. During the initial study phase, this means the grade achieved in the Abitur or, if applicable, other university entrance qualification is taken into consideration. During the main study phase of Bachelor's studies, a specific average grade is calculated for study and exam results achieved so far; and for Master's programmes, the grade achieved in the Bachelor's studies is taken into consideration. In the second step, the evaluation looks at social commitment, personal and social competences and particular personal achievements.

AMOUNT OF THE SCHOLARSHIP

300 EUR per month for the duration of one year, irrespective of any other income students or their parents may have. It is possible to apply for an additional year of support.

Scholarship holders are supported with up to 500 to 1000 EUR overall.
