

# FRANKFURT ON SPRING SCHOOL CONSERVATION PROJECT MANAGEMENT

Only for students  
enrolled in the Master programmes  
„Ökologie und Evolution“ or  
„Umweltwissenschaften“  
at the Goethe University!

## WHEN

4.-29.3.2019, Monday to Friday,  
9 a.m.–5 p.m. (10 CP)

## WHERE

Goethe University Frankfurt,  
Campus Riedberg, Biologikum

**ALL OVER THE WORLD** governmental and non-governmental organisations initiate and implement projects dedicated to the conservation of natural resources. Such projects are ideally run by biologists who have knowledge and understanding of biodiversity related issues as well as managerial abilities. Through this spring school, expert knowledge, skills, and practical experience related to conservation project management will be taught to advanced students of biology and related subjects, to biologists at the beginning of their professional career, and to junior project managers from Asia, Africa and Latin America. The teachers are professionals and practitioners of biodiversity-related institutions of the Goethe University Frankfurt am Main but also from other institutions. We aim to provide an insight into project development and management for conservation projects as well as promoting future managers and leaders of conservation projects.

### MAIN TEACHING MODULES:

1. **Project management** (log frame development, proposal writing, fundraising, reporting, monitoring & evaluation)
2. **Human resources & personnel management** (capacity development, leadership, recruitment, performance management, mediation, coaching)
3. **Financial management** (financial administration, accounting, how to read a balance sheet)
4. **Performance skills** (communication, writing, presenting, time- and self-management)
5. **Organizational development** (strategic and business planning, growth- and risk-management)

### COMPLEMENTARY TEACHING MODULES AND ACTIVITIES:

- Lecture day on scientific research related to nature conservation
- Excursion to the Kellerwald-Edersee National Park
- Social activities
- Final, graded examination

### COST:

200 EUR (BAföG recipients: 100 Euro) contribution to cover costs for external, international trainers, a field trip and catering for the kick-off and closing event. Successful participation in the spring school will be certified with 10 CP.

### REQUIREMENTS FOR PARTICIPATION:

- at least two semesters in the Master programmes „Ökologie und Evolution“ or „Umweltwissenschaften“ are completed by the end of the winter term 2018/2019
- good to very good English proficiency (min. B2)
- strong interest in applied conservation issues

### APPLICATION DOCUMENTS:

- In order to become one of approx. 24 participants submit
- a CV (max. two pages in English)
  - motivation letter (max. two pages in English)
  - transcript of records of your Master studies

as one pdf file by e-mail to [Springschool@bio.uni-frankfurt.de](mailto:Springschool@bio.uni-frankfurt.de) until 1<sup>st</sup> October 2018!
