Transdisciplinary Summer School - Transdisciplinary Research at the Science | Society Interface within an Intercultural Orientation

Objective

The overall objective of the Transdisciplinary Summer School 2019 is to contribute to a comprehensive understanding of transdisciplinary research in the context of societal changes. This includes:

- Getting familiar with different transdisciplinary research methodologies and process designs
- Acquiring competences in methods for inter- and transdisciplinary research: mutual learning and knowledge integration methods, methods of boundary-work, validation and assessments
- Exploring how to broaden the participants’ disciplinary and interdisciplinary research by adopting principles of transdisciplinary research
- Identifying different functions of transdisciplinary processes and roles of involved parties

Description

Leuphana University Lüneburg is pleased to invite you to the Transdisciplinary Summer School 2019. This year, the Transdisciplinary Summer School will be realized in Kazbegi, Georgia (Caucasus) in cooperation with Tbilisi State University, Georgia, University of Natural Resources and Life Sciences Vienna, Austria, and Armenian State Pedagogical University, Armenia. The Transdisciplinary Summer School offers a 5-day intensive training on transdisciplinary research that will prepare researchers and practitioners for transformative research on societal challenges at the science | society interface. Participants will gain input on theoretical and methodological foundations as well as experience in designing and implementing transdisciplinary research processes. The aim is to broaden academic researchers’ disciplinary and interdisciplinary perspectives towards a transdisciplinary approach and to enable practitioners to elaborate their role in transdisciplinary research processes. This year a particular focus is on interculturality to foster exchange between researchers and practitioners from different world regions, in particular the Caucasus region, and to mutually learn from different transdisciplinary research traditions.

For more information, visit the Td Summer School’s homepage at: https://www.leuphana.de/zentren/methodenzentrum/td-training.html

Conditions

Due to the limited number of participants, we ask you to send your CV, motivation letter and outline of your current professional activities by 1 April 2019 to workshops@grade.uni-frankfurt.de.

Your participation will be confirmed as soon as possible.

Please consider that the Summer School will take place at a cooperating European university. GRADE will reimburse conference fees, travel and lodging costs for the selected participants.
