Scientific Paper Writing:
Special Focus on Mathematics and Computer Science
In Cooperation with the GRADE Center CompuMath

🧱 Objective
To obtain an insight into field-specific criteria of academic writing and publishing in the fields of mathematics and computer science.

🔍 Description
Structuring and writing an article in your area of research within mathematics or computer science, submitting it for presentation at suitable conferences and/or identifying appropriate journals for publication of the article require specific knowledge of the writing, presentation and publication process in mathematics and computer science.

This workshop will provide participants with an introduction to the following topics:
- Hallmarks of successful papers in mathematics and computer science
- Conferences and journals in mathematics and computer science: overview
- Selecting journals and/or conferences
- Submission process
- Reviewing process

The workshop will cover the three fields of mathematics, theoretical computer science and computer engineering.

It is a complementary unit to our general workshops on scientific writing. We strongly recommend to attend one of those workshops to obtain extended knowledge of scientific writing.
