who we are

Hábitat para la Humanidad Argentina is a non-profit christian organization committed to the cause of **decent housing in Argentina**.

Our mission is to break the poverty cycle by offering families an opportunity to achieve, through shelter, the **strength, stability and self-reliance** they need to build a better future.

Through active **volunteer** participation and the help of **donors** and **institutions**, we work together to offer concrete and holistic solutions.

Since 2002 we have been working in different areas of our country alongside **thousands of people** who have actively sought to overcome their housing limitations.

We are part of the global network **Habitat for Humanity** present in +70 countries.
International Volunteer & Internship Program

Every year new volunteers and interns from different parts of the world join our team by applying to the Program. In a world of networking and connections, it is of incalculable value to encourage innovation by means of exchange and diversity. Accordingly, we are expanding a Program to better address and overcome housing issues through the active participation of volunteers and interns committed to the mission that every person deserves an adequate place to live.

We recommend applying to our Program by anyone who seek a personal and/or professional transformative experience in a new culture and who wants to devote their talents to the service of those that need them the most.
Departments+ Positions

Benefits for the Volunteer/Intern

• Be part of a Program that empowers families in order to build strong and stable communities in Argentina.
• Get to know the internal functioning of a established and respected NGO that belongs to an international network.
• Have an experiencie of professional growth in your area of interest.
• Acquire tools related to project management.
• Improve communications skills in Spanish.
• Upon completion of the Program experience, you will receive a certificate and a recommendation letter signed by the National Director.
I have collaborated with the revision and elaboration of plans to find solutions to some of the neighborhood housing issues. I also have learnt how houses are built in Argentina - very different from ours in the US.

When I visited Los Ceibos, I had the opportunity to see that what I have been designing in my computer was actually real and I loved it!

What is more, I had the chance to talk and improve my Spanish in a professional and friendly environment.

Thank you very much for this opportunity, it was one of the best experiences of my life!
your contribution builds **strength, stability and self-reliance**
