

Geowissenschaftliches Kolloquium Sommersemester 2020/21

Mittwochs, 17.15 Uhr, Raum: Zoom!
Altenhöferallee 1, 60438 Frankfurt am Main

- 14/04/2021 **Dr Ralf Halama** (Keele University, UK)
Pinched between the plates: Armenia's record of volcanism in a continental collision zone
- 21/04/2021 **Prof. Christoph Spötl** (University of Innsbruck)
Traces in the dark: Cave sediments and their unique record of long-term terrestrial environmental change
- 28/04/2021 **Dr Dominik Hezel** (GU Frankfurt)
Umhabilitation
- 05/05/2021 **Dr Robert Nicklas** (UC San Diego)
The redox heterogeneity of the modern mantle: evidence from oceanic basalts
- 12/05/2021 **Dr Christian Maerz** (University of Leeds)
The past, present, and future Arctic Ocean – An Earth scientist's perspective
- 19/05/2021 **Dr Robin Fentimen** (Université de Fribourg)
Deep-sea benthic foraminifera and their use as palaeoenvironmental indicators in cold-water coral mounds
- 26/05/2021 **Dr Tina Lüdecke** (Max Planck Institute for Chemistry (MPIC), Mainz)
Nitrogen isotopes in tooth enamel as a novel proxy for meat consumption: Trophic level reconstruction of Early Pleistocene Australopithecus (Sterkfontein, South Africa)
- 02/06/2021 **Prof. Maria Schönbächler** (ETH Zürich)
Building planets: Lessons from meteorites
- 09/06/2021 **Prof. Jingao Liu** (Chinese University of Geoscience)
Plume-driven reactivation of deep continental lithospheric mantle
- 16/06/2021 TBC
- 23/06/2021 TBC
- 30/06/2021 **Dr Jeremy McCormack** (Max Planck Institute for Evolutionary Anthropology)
TBC
- 07/07/2021
-

MSc-Studenten müssen für das MP1 Modul an **8 Kolloquiums-Vorträgen** teilgenommen haben und **2 Berichte** abgegeben haben!
