

Basics of Grant Application

Trainer

Dr. Beate Scholz
Scholz CTC GmbH,
Trier

- Works internationally as a strategy consultant, trainer, and coach since 2003
- Focus on research career development and international research collaborations
- Serves as reviewer to several research organisations, as well as expert for the EU, the OECD, the Max Planck Society, the Helmholtz Association (among others)
- Program director for research careers at the German Research Foundation (DFG) until 2008

Objective

The aim of this online workshop is to provide the participants with basic knowledge and competencies for the development of grant applications for funding bodies, an important element of a scientific career. The workshop concept considers the participants' qualification phases and experiences and offers the opportunity to develop and present a grant summary.

Description

The workshop deals with the theory of good writing, the basics of grant applications, hands-on exercises on defining your aims, structuring a work plan and writing a grant summary.

It combines lecture-style elements (e.g. overview of funding process and funding programs) with active participation of participants (developing a grant summary).

The workshop covers:

- Overview on research careers and the importance of funding
- Selected funding programs: requirements and guidelines
- Core components of a grant proposal: work plan and budget
- Criteria and perspectives of peer review
- Individual development and presentation of a grant summary
