

Advanced  
Postdocs

Rhein-Main  
Universitäten

**Prof. Dr. Reinhard Dörner**  
Institute for Nuclear Physics  
of Goethe University

2012 - 2020, member of the  
DFG Review Board Optics,  
Quantum Optics and Physics  
of Atoms, Molecules and  
Plasmas

**Prof. Dr.  
Amparo Acker-Palmer**  
Department for Molecular  
and Cellular Neurobiology of  
Goethe University

Since 2016 member of the  
DFG Review Board Neurosci-  
ences

**Prof. Dr. Ralf Brandes**  
Institute of Physiology I Cardiovascular Physiology of  
Goethe University

Since 2020 member of the  
DFG Review Board Medicine

**Bettina Maria Heiss, Ph.D**  
Research Service Center,  
Goethe University,

Consultant for national re-  
search funding and early  
career researchers

## Success Factors for DFG Proposals – Ask the Review Panel - Focus Natural and Life Sciences

In Cooperation with the Research Service Center

on campus

### Objective

Advanced doctoral candidates and postdocs can learn about the application and review process at Germany's most important research funding organization. They will learn about success factors for DFG proposals, discover how a review panel works, and can discuss their questions with scientist who are closely involved on the selection of proposals for funding.

### Description

Funding proposals by scientists are, in most cases, evaluated by other scientists. At the DFG, the review panels play a crucial role in selecting proposals for funding. The panelists are elected scientists from German universities and research institutions. Several of them work at Goethe University. At this workshop, DFG review board members from the various major scientific fields at Goethe University will come together and answer your questions:

- How exactly does the selection and review process work?
- How does the review board select suitable proposals and what are the most important selection criteria?
- How much preliminary work do you need?
- Feel free to bring YOUR questions

### Methodology

The workshop starts with two short presentations on funding opportunities and the review process at the DFG.

Afterwards, the participants will have the opportunity to discuss their questions with the panelists

### Moderation

Matthias Köhler, Deputy Managing Director of GRADE, Goethe-Universität

**We will decide shortly before the workshop, whether it will take place online or in presence at Campus Bockenheim. Participants will be informed in time.**
