

# EINLADUNG

Kolloquium  
Wintersemester 2021 / 2022

Prof. Dr. Tobias Plieninger

Leiter des Lehrstuhls für Sozial-ökologische In-  
teraktionen in Agrarsystemen, Georg-August-  
Universität Göttingen und Universität Kassel

hält am Dienstag, den **25.01.2022**, um 16:15 Uhr, digital via Zoom,  
einen Vortrag über

## „Understanding biocultural diversity in landscapes“

Biocultural diversity encompasses the ‘diversity of life in all its manifestations—biological, cultural and linguistic—which are interrelated within a complex socio-ecological adaptive system’. Biocultural diversity includes indigenous and local people’s worldviews, livelihoods, and relations to biodiversity, but also the cultural values and practices of communities in transformed and more intensively used landscapes. There is wide agreement that maintaining and developing biocultural diversity is critical to achieve sustainable land management. This presentation highlights the importance, dimensions, and potential contributions of biocultural approaches to sustainability, using recent empirical examples from agricultural and forest landscapes in Europe and beyond.

Tobias Plieninger is Professor in Social-Ecological Interactions at the University of Göttingen and the University of Kassel (Germany). He is a sustainability scientist with a commitment to inter- and transdisciplinary research at the social-ecological interface. In particular, he studies rural landscape change, ecosystem services, and sustainability transformations. His research focuses on the complex relationships between agriculture, forestry, nature conservation, and other sectors of natural resource management. Plieninger is co-editor of ‘The Science and Practice of Landscape Stewardship’ (Cambridge University Press), ‘European Wood-Pastures in Transition’ (Routledge), and ‘Resilience and the Cultural Landscape’ (Cambridge University Press).

Einladender: Prof. Dr. Klement Tockner
