Goethe University Frankfurt am Main invites applications for the position of

**Professorship (W3) in Human Genetics**

in the University Hospital Frankfurt at the Faculty of Medicine. This civil servant or public employee position will start as soon as possible.

The successful candidate’s responsibilities will include representation of the subject area of Clinical Human Genetics in patient care, research and teaching. The professorship is linked to a leading senior physician position at the “Dr. Senckenbergisches Institut für Pathologie”.

Applicants must be outstandingly qualified (habilitation or comparable scientific qualification) and have a track record of research and teaching in the subject area of Human Genetics. The applicant’s past research and publications are expected to be internationally recognized. Active acquisition of third-party funding is expected.

The candidate should be a board-certified human geneticist (MD) and have appropriate experience in medical and human genetics. Therefore, a broad diagnostic spectrum in the entire field of human genetics is expected. Also, a strong commitment and experience in teaching, didactic skills and the willingness to actively participate and shape teaching of human genetics and further degree programs of the Medical Faculty is required.

The main objectives of the offered position are the development and establishment of a Section of Human Genetics at the “Dr. Senckenbergisches Institut für Pathologie”, the integration of the results of germline testing with those of somatic molecular pathological testing on pathological samples for the identification of clinically relevant biomarkers and the investigation of molecular alterations on their impact on disease heritability, prognosis, treatment response and classification. Willingness to play a constructive role in already established projects of the Medical Faculty and the University Hospital Frankfurt (amongst others, translational drug research, neurosciences, pediatrics and obstetrics, cardiovascular medicine) and to establish a novel research focus at the institution are mandatory.

Integration into the oncological focus of the Medical Faculty and the University Hospital (Frankfurt Cancer Institute - FCI, University Centre for Tumor Diseases – UCT, local and national structures of the German Consortium for Translational Cancer Research – DKTK) is expected.

The salary for the position is based on “W3” of the German university scale or equivalent. The health care tasks associated with the professorship are regulated by a contract of employment for performance-related remuneration with fixed and variable components.

The formal hiring requirements are defined in the Hessian Higher Education Act (Hessisches Hochschulgesetz).

Goethe University is an equal opportunity employer, committed to diversity and inclusion. In particular, we are welcoming applications by qualified women and people with a migrant background. At Goethe University, a special emphasis is placed on creating and sustaining a family-friendly work and research environment. Where applicants are otherwise equally qualified, preference is given to candidates with disabilities or equivalent. The same applies to women in fields in which they are under-represented.

To apply, please send a CV, a list of publications, an overview of your research and teaching activities as well as transcripts and course evaluations as a single PDF document by 29. March 2022 to Bewerbungen-Professur9@kgu.de. If you have any questions, please contact Herrn Prof. Dr. med. Udo Rolle at udo.rolle@kgu.de.
