(Virtual)Poster Presentation Skills for Scientists

Objective

By the end of this online workshop, you will have all the skills needed to create professional and attractive posters (for face-to-face and virtual conferences) and to present them. You know how to write an engaging abstract.

Description

Presenting posters at scientific conferences is one of the key points in every scientist’s academic career and an opportunity to get in touch with experts of one’s research field. In this workshop, you will learn about the different aspects of a successful poster presentation and (virtual) conference attendance.

Methodology

This online workshop consists of 3x2.5 hours real-time webinars spread over three days. Between the webinars you spend time on our online learning platform which contains movies, eBooks, podcasts and exercises (with instructor- and peer-to-peer-feedback).

Adding all up, it takes you 14-16 hours to complete the course.

Conditions

For this course, you need internet access, a working camera and a microphone.
