

The Editors Perspective: Focus on Humanities and Social Sciences

Trainer

N.N.

Objective

Getting acquainted with the publication procedure of high level journals

Description

In this workshop you will gain an overview on publishing and on transparency of the review process.

The workshop will also include an introduction to the submission procedures, the role of the cover letter and on the review process.

Important aspects of scientific writing, as well as authorship rules/order of author lists, and good scientific practice for publishing will be discussed.

At the time of publishing, it was not yet decided who would take over this workshop. You will find up-to-date information on our homepage at:
