**ORGANISCHES KOLLOQUIUM**

**Sommersemester 2019**

Freitag

3. Mai 2019, 17:15

**Prof. Dr. Christoph Rademacher**

(MPI für Kolloid- und Grenzflächenforschung):

„Fragment-based Design of Immune Cell Receptor  
Ligands for Targeted Delivery to Langerhans Cells“

Freitag

14. Juni 2019, 17:15

**Dr. Stephanie Kath-Schorr**

(Universität Bonn)

“RNA functionalization via an expanded genetic  
alphabet”

Freitag

12. Juli 2019, 17:15

**Dr. Christine Beemelmans**

(Hans-Knöll-Institut, Jena)

“Microbial symbionts – sources of new natural products  
and biosynthetic pathways”
