In cooperation with the Research Service Center, Goethe-University

Researchers are increasingly faced with expectations to raise 3rd party funds if they want to pursue a successful research career. Yet, applying for 3rd party funds is not an end in itself and could even be detrimental to research careers, if disconnected from own scientific or life plans or scientific goals. This workshop, thus, aims to clarify which kinds of funding opportunities are suitable for the participants’ respective purposes. In addition, it offers insights into the objectives and habits of research funding institutions and peer review procedures. Individual short coaching sessions during the second day will help the participants to pave their way towards successful applications in view of their needs and ambitions.

Appointments by prior agreement for individual short coaching sessions (24.01.2018) will be scheduled at the end of the first workshop-day by Ms. Scholz.

Please note: Participants are asked to submit a CV until 05.01.2018! Confidential treatment will be guaranteed. Participants may also provide in advance their concerns/short questions for the coaching session (2-3 sentences).

**OBJECTIVES**

- This workshop will offer participants assistance with the further planning of their scientific career by providing guidance in view of funding opportunities and by offering insights into the objectives and practices of research funding institutions and peer review procedures.

**DATE**
