

## Scientific Paper Writing: Special Focus on Social Sciences and Philosophy

### Objective

To get an insight into field-specific criteria of scientific writing and publishing in the Social Sciences and Philosophy.

### Description

Writing a paper in your field of research, finding the appropriate journal and finally getting your paper published requires a very specific knowledge of the writing and publication process in your discipline.

This online workshop will give participants an introduction into the following topics:

- Journal selection
- Process of submission
- Dealing with editor's feedback

This workshop is a complementary course to our general workshops on scientific writing. We strongly recommend attending one of those workshops to obtain an extended knowledge of scientific writing and publishing.

### Trainer

**Prof. Dr. Thomas Biebricher**

Copenhagen Business  
School, Copenhagen
