

Scientific Paper Writing in the Life and Medical Sciences

Trainer**Dr. Melanie Conrad**

Charité
Universitätsmedizin, Berlin

Dr. Melanie Conrad was born in Vancouver, Canada, where she studied biology at the University of British Columbia.
Presently, she leads a reproductive immunology research group at the Charité Universitätsmedizin, Berlin. With 14 years of experience in science, her expertise includes paper and grant writing, presentation design and explaining her research to her grandmother.

Objective

This online workshop concentrates on the process of writing an academic manuscript in the medical or life sciences. In addition to providing in-depth information for each manuscript section, choosing an audience creating a story, explaining complex data and formulating convincing arguments will also be discussed. Workshop participants will be instructed in the formal and organizational aspects of academic writing and train their competency with exercises.

Description

At the end of the workshop participants will:

- have a detailed overview of the structure of a scientific manuscript,
- learn to build an interesting story from their data,
- improve their argumentation skills for writing convincingly,
- improve their writing structure and flow,
- be familiarized with the publishing process.

Conditions

Participants should bring

- A 250-300 word abstract on your research in a file that is editable by computer.
- One scientific paper of your choice, original papers only, no reviews please.
- The workshop will be conducted online through the Zoom platform.
Participants will need a computer with a video camera and a microphone.
To enter the workshop environment, participants simply click on a link provided one week before the workshop. No additional software installation is required.
