

Geowissenschaftliches Kolloquium

Wintersemester 2020/21

Mittwochs, 17.15 Uhr, Raum: Zoom!
Altenhöferallee 1, 60438 Frankfurt am Main

-
- | | |
|------------|---|
| 04/11/2020 | Dr Morgane Le Saout (GEOMAR)
<i>Marine echosound:from aquisition to application</i> |
| 11/11/2020 | Dr Philip Staudigel (Cardiff)
<i>Calculating fluid advection rates in carbonate sediments using calcium and clumped isotopes</i> |
| 18/11/2020 | Dr Miriam Reiss (GU Frankfurt)
<i>The impact of complex volcanic plumbing on the nature of seismicity in the developing magmatic Natron rift, Tanzania</i> |
| 25/11/2020 | Dr Niels Meijer (Senckenberg)
<i>Asian dust, monsoons and westerlies during the Eocene</i> |
| 02/12/2020 | Dr Simon Darroch (Senckenberg)
<i>Ancient life in moving fluids: fluid dynamics and the character of the Ediacaran-Cambrian transition</i> |
| 09/12/2020 | Dr Alexander Bartholomä (Senckenberg Wilhelmshaven)
<i>Underwater remate sensing and seafloor characterization</i> |
| 16/12/2020 | Dr Megan Holycross (Cornell)
<i>Probing Earth's deep oxygen cycle with vanadium</i> |
| 13/01/2021 | Dr Rachel Racicot (Senckenberg)
<i>TBC</i> |
| 20/01/2021 | |
| 27/01/2021 | Dr Marjorie Cantine (MIT)
<i>Time and process in sedimentary rocks at the dawn of animal life</i> |
| 03/02/2021 | Simon Zoppe (GU Frankfurt)
<i>The skeletal growth of corals – How sclerochronology helps to develop (paleo)ecological insights into coral reef ecosystems</i> |
| 10/02/2021 | Dr Rosie Sheward (GU Frankfurt)
<i>TBC</i> |

MSc-Studenten müssen für das MP1 Modul an **8 Kolloquiums-Vorträgen** teilgenommen haben und **2 Berichte** abgegeben haben!
