

Interdisciplinary Seminar on Topology in Condensed Matter Physics

Dear colleagues from the math department,

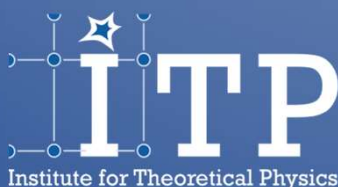

we would like to invite you to an interdisciplinary seminar on "Topology in condensed matter physics".

When: 2nd of February 2021 from 3 pm to 5 pm
Where: online (zoom)

Abstract: The idea of this seminar is to start off with an overview on the concepts from group theory and topology that enter the physical classification of electronic states in condensed matter. Moreover, we present some open problems and limitations of these tools.

Registration: Please register via email to zantout@itp.uni-frankfurt.de

Organization: K. Zantout, R. Valentí and T. Weth

Institut für
Mathematik
