

Marie S.-Curie Actions: Individual Fellowships and ERC: Starting and Consolidator Grants

Trainer

Dominik Maas

KoWi - European Liaison
Office of the German
Research Organizations,
Bonn

Dominik Maas received his M.A. in European Studies at University of Wuppertal in 2013. After an internship at the Representation of the Free State of Bavaria to the European Union in Brussels and a short time as project assistant at the Federal Office of Administration in Cologne, he joined the KoWi Bonn office in 2015. Since then he has been a member of the Marie S.-Curie Actions (MSCA) and European Research Council (ERC) team of KoWi.

Objective

In this online workshop, participants will get an overview of the funding possibilities for postdocs within the Marie S.-Curie Actions and the European Research Council (ERC) Starting and Consolidator Grants.

Description

The Marie S.-Curie Actions of the European Commission offer several possibilities for young researchers to obtain funding for their own research projects. The Individual Fellowships particularly support young researchers by giving them the opportunity to work on a chosen research project in a high-level research institution in an EU Member State, Associated Country or a Third Country for one or two years.

The second part of this workshop will deal with the Starting and Consolidator Grant Schemes of the European Research Council (ERC). Starting and Consolidator Grants are aimed at promising researchers, who are at the beginning of an independent research career, by funding the creation or consolidation of their first research team.

The workshop will be conducted via GoToWebinar.

Organizational Information

Language	English
Target group	Advanced Doctoral Candidates and Postdocs from all faculties
Date	Tuesday, 18 May 2021, 14:00 – 17:00
Registration	Für die Registrierung klicken Sie bitte hier
